DAYKIN BROS.,

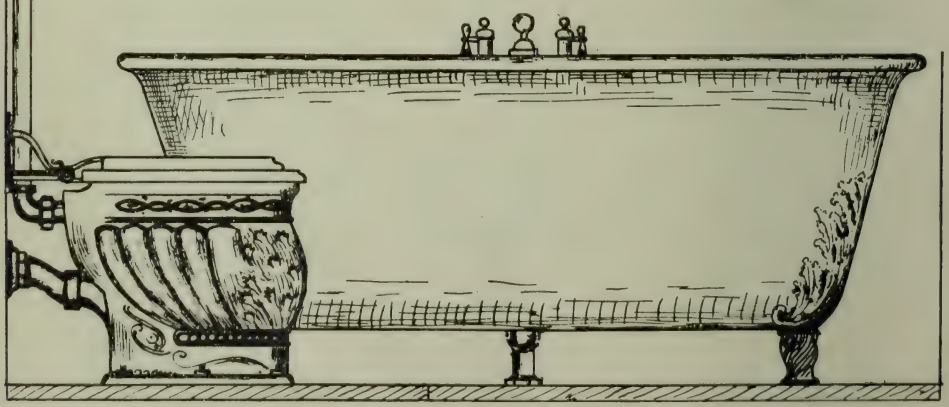
OFFICE,



383 Pearl Street, Cleveland.

Experience, close application to business, and years of time are absolutely necessary to make good Sanitary Engineers. It is dangerous to health and life to have inexperienced and cheap people do your plumbing. Poorly constructed plumbing goods are not worth buying.

Our firm has had an experience of thirty-five years. We are "Standard," reliable and responsible. The bath tubs, water closets, lavatories, washstands, traps, faucets and everything we manufacture are the best and most improved, because, nearly every other manufacturer in this line copies our styles and gets as near to our patterns as possible.

Deal with us; it is better and safer for you.

STREET AND AVENUE GUIDE.

EXPLANATION.

On referring to this Directory, it will be noticed that the names of streets, avenues, etc., follow each other in strictly alphabetical order, without regard to location. To all the *more important* streets and avenues are subjoined the names and numbers of intersecting streets and avenues in the order in which they occur. The letters and figures following the street names are given to ascertain the location of streets and avenues on the MAP. Take for example, ST. CLAIR, D-7: On the sides of the Map are the letters A to K; at top and bottom, figures 1 to 13; St. Clair will be found in the angle formed by drawing a line D to D, 7 to 7. Now if you wish to find, say No. 1263 St. Clair, by reference to the Guide you will find that St. Clair crosses Case av. at No. 1250 and Lyman at 1290; hence, the place you seek is between these two streets, and nearest to Case av. The dash indicates that the corner is vacant, is not numbered, or is occupied by a church or school house.
